

The Rockies of Canada

BANFF AND LAKE LOUISE

The Rockies of Canada

Banff and Lake Louise are situated at an altitude of 4,520 and 5,670 feet respectively in the heart of the Rocky Mountain Park, a great national playground with an area of 5,732 square miles, the largest in the world. Here, with peaks radiating in every direction, and abounding with game of large and small variety, the photographer, the naturalist, and the mountain climber are in their element; while the traveller seeking a holiday can have his every want supplied.
